# RayOne Galaxy IOL Clinical Study

If you have been told by your eye doctor that you have cataracts, there is a potential opportunity for you to take part in a clinical study focused on the RayOne Galaxy intraocular lens (IOL) implant.

To qualify, you must:

- Be 22 years of age or older
- Have cataracts in both eyes
- Meet all other study-related criteria

Participants receive:

- Thorough screening evaluation of your eye health
- Follow-up visits for up to 6 months
- Reimbursement for costs related to time and travel

To learn more about the RayOne Galaxy IOL Clinical Study, please contact your eye doctor.
